

BioSpin / MF-12 & MS-12000

Mini Centrifuge

Features:

LCD display of time and speed
Adjustable speed from 1000rpm to 12000rpm
Time, from 15s to 99min, or continuous operation

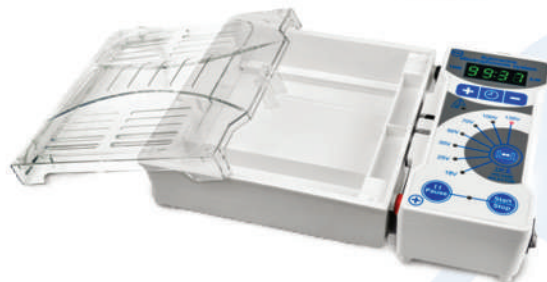

Dry Bath Incubator / DB-100

Simultaneous display of set and actual time, temperature
Temperature deflection adjusting meet with different demands
Easy to replace the metal blocks and is very simple to clean and sterilize
Beep-signal/Stop after program completed

Electrophoresis System

1.Horizontal gel electrophoresis system
2.Vertical gel electrophoresis system
the maximum voltage output of 300V and current output 400mA,
with 4 sets output terminal mainly for routine electrophoresis

Micro Pipette M-Series

Single Channel
Multi Channels: 8 & 12

Mini Electrophoresis / GE-135

Compact and Safety Design
Electrophoresis System
Output Power: 135V/ 100V/ 70V/ 50V/ 35V/ 25V/ 18V
Bath Dimensions (WxDxH): 150x150x47mm
Volume of Bath: 500ml
Time Range: 1min-99hr59min

BioBead Kits

Homogenizer Buffer Kits
BioBead Plant
BioBead Tissue
BioBead Microbe
BioBead Plant RNA
BioBead Tissue RNA
BioBead Microbe RNA

Nucleic Acid Isolation Kits

Genomic DNA Purification System
RNA Purification System
Plasmid DNA / PCR Clean / Gel Extraction System

PCR Reagent Kits

Biometrics Technologies

Life Science Solution

Biometrics Technologies, Inc.

Address: 1220 N. Market S. Suite 806, Wilmington, DE 19801, USA
Email: info@biometrics-technologies.com www.biometrics-technologies.com

Biometrics Technologies Co., Ltd. (Taiwan)

Address: 15F-8, No. 99, Sec. 1, Xintai 5th Rd., Xizhi District, New Taipei City 221, Taiwan
Email: sale@biometrics-technologies.com

About Biometrics Technologies

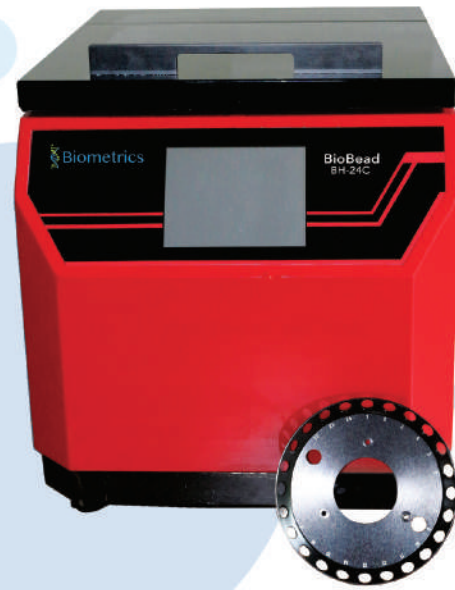

Biometrics Technologies, Inc. has a solid foundation with scientific professional, is established in 2013. Our company has successfully developed a several of high-tech products with patented technology. With strong R&D and expert management team, Biometrics products are a good reputation and advanced designing for the clinical diagnosis and life science. To ensure premium quality, business processes and quality control strictly follow up the ISO 9001 quality management system.

Biometrics Technologies, Inc. is entrusted to bring the Innovative Solution including the creation of new technology. We have built up the business channels to oversea countries such as Southeast Asia, Taiwan, Korea, Middle East, Oceania, Europe and so on. Mostly of our products are designed with RoHS complied and CE marked.

BioBead / BH-24C

Bead Mill Homogenizer

Features:
24x0.2 ml
Cooling Function
Shaking and Centrifuging Function
Centrifuging soon after homogenization to get the supernatant directly.
Low noise ≤ 58db

BioSpin / HC-165 & HC-165R

High Speed Centrifuge

Features:
Max. rotor capacity: 100mlx4
Speed up to 16,500rpm (23,669xg)
HC-165R Refrigerated Centrifuge has an additional feature: state of the cooling function (-20 to 40°C)

OneDrop

Micro-volume Spectrophotometer

Features:
Variable pathlength
Cuvette detection mode
Wireless connection
Multi-functions
- Nucleic acid detection
- UV visible custom scanning
- Nucleic acid fluorescence marker detection
- Protein detection
- Nucleic acid fluorescence marker detection
- Cell detection
- Temperature 37°C & Stirrer

BioGene 96 TOUCH

PCR Thermal Cycler

Features:
7-inch colorful touch screen
Reliable lids, specially designed lids reduce the evaporation during PCR
Simple data transfer

Portable design for blocks

Gold/Silver coated blocks increase heat conduction efficiency
Portable design is easy for sample blocks interchange without maintenance
- 96-well Reaction Module
- 54-well Reaction Module
- 96-well+77-well Reaction Module
- 384-well Reaction Module

The miniPCR System

miniPCR

8x0.2ml tubes & 16x0.2ml tubes and control by Windows, Mac and Android

BlueGel

Gel electrophoresis unit with built-in transilluminator

LIGHTGene 40G & 60G

Real-Time PCR System, 96-well block

Features:
with color touch screen and integrated gradient block control function. Innovative Patented "SSLP" and T-Optical Technology will provide the better fluorescent, analyze up to 6 multiplex PCR.

iBLED

Portal to Life Discoveries!
LED Transilluminator

iBLED

LED Transilluminator

Features:
Optimize for use with the nucleic acid and protein fluorescent dyes.
Blue light source is good for 30,000 hours.
No risk of UV damage for high quality work experience.

AMDS-400

Automatic Molecular Detection System

Features:
the fully integrated system for fast molecular diagnostics, which combines the nucleic acids extraction and Real-Time PCR, by using the microfluidic cartridge preassembled kit, up to 5 multiplex PCR.

BioPlate Reader / MR-850

Microplate Reader

Features:
Fast reading of both 96-well and 384-well microplates
Shaking and incubation from RT+4°C to 50°C for temperature critical assays
High-quality photodetector from Hamamatsu
USB port for easy data transfer
