

BioSpin / MF-12 & MS-12000

Mini Centrifuge

Features:

- LCD display of time and speed
- Adjustable speed from 1,000rpm to 12,000rpm
- Time, from 15s to 99min, or continuous operation

Dry Bath Incubator / DB-100

Simultaneous display of set and actual time, temperature
 Temperature deflection adjusting meet with different demands
 Easy to replace the metal blocks and is very simple to clean and sterilize
 Beep-signal/Stop after program completed

Electrophoresis Apparatus

- Horizontal gel electrophoresis tank
- Vertical gel electrophoresis tank, can run up to 2pcs and 4pcs.
- Power Supply the maximum voltage output of 300V or 600V and current output 1-400mA or 1-1,200mA, with 4 sets output terminal mainly for routine electrophoresis.

Micro Pipette M-Series

Single Channel
 Multi Channels: 8 & 12

Mini Electrophoresis / EPS150H

Compact and Safety Design
 Electrophoresis System
 Output Power: 10V-150V
 Bath Dimensions (WxDxH): 183x164x56mm
 Volume of Bath: 500ml
 Time range: 1min-9hr59min

BioBead Kits

- Homogenizer Buffer Kits
- BioBead Plant
- BioBead Tissue
- BioBead Microbe
- BioBead Plant RNA
- BioBead Tissue RNA
- BioBead Microbe RNA

Nucleic Acid Isolation Kits

Genomic DNA Purification System
 RNA Purification System
 Plasmid DNA / PCR Clean / Gel Extraction System

PCR Reagent Kits

Biometrics Technologies

Life Science Solution

Biometrics Technologies, Inc.

Address: 1220 N. Market St. Suite 806, Wilmington, DE 19801, USA
 Email: info@biometrics-technologies.com www.biometrics-technologies.com

Biometrics Technologies Co., Ltd. (Taiwan)

Address: 15F-8, No. 99, Sec. 1, Xintai 5th Rd., Xizhi District, New Taipei City 221, Taiwan
 Email: sale@biometrics-technologies.com

About Biometrics Technologies

Biometrics Technologies, Inc. has a solid foundation with scientific professional, is established in 2013. Our company has successfully developed a several of high-tech products with patented technology. With strong R&D and expert management team, Biometrics products are a good reputation and advanced designing for the clinical diagnosis and life science. To ensure premium quality, business processes and quality control strictly follow up the ISO 9001 quality management system.

Biometrics Technologies, Inc. is entrusted to bring the Innovative Solution including the creation of new technology. We have built up the business channels to oversea countries such as Southeast Asia, Taiwan, Korea, Middle East, Oceania, Europe and so on. Mostly of our products are designed with RoHS complied and CE marked.

BioBead / BH-24C

Bead Mill Homogenizer

- Features:**
- 24x0.2 ml
 - Cooling Function
 - Shaking and Centrifuging Function
 - Centrifuging soon after homogenization to get the supernatant directly.
 - Low noise ≤ 58db

BioSpin HC-165 & HC-165RT

High Speed Centrifuge

- Features:**
- Max. rotor capacity: 100mlx6
 - Speed up to 16,500rpm (24,814xg)
 - HC-165RT Refrigerated Centrifuge has an additional feature: state of the cooling function (-20 to 40°C)

OneDrop TOUCH

Micro-volume Spectrophotometer

- Features:**
- LCD 7" Touch screen operation and analysis
 - Heating at 37 degree Celsius and Stirring
 - Full wavelength scanning both Pedestal and Cuvette mode
 - Multi-Functions:
 - Nucleic acid detection
 - UV visible custom scanning
 - Micro Array
 - Protein detection
 - Kinetics
 - Cell culture detection (OD 600 nm)

BioGene 96 TOUCH

PCR Thermal Cycler

- Features:**
- 7-inch colorful touch screen
 - Reliable lids, specially designed lids reduce the evaporation during PCR
 - Simple data transfer

Portable design for blocks

- Gold/Silver coated blocks increase heat conduction efficiency
Portable design is easy for sample blocks interchange without maintenance
- 96-well Reaction Module
 - 54-well Reaction Module
 - 96-well+77-well Reaction Module
 - 384-well Reaction Module

PCG-32

PCR Work Station

- Features:**
- 4-in-1 integrated system for PCR Work Flow
 - PCR: 32-well isothermal control module.
 - Mini Centrifuge: Capable of centrifuging microcentrifuge tubes and PCR 8-strip tubes.
 - Horizontal Gel Electrophoresis System: Supplied with a power supply and an amber filter cap for safe gel observation during operation.
 - Blue Light Transilluminator: Integrated 470 nm blue light source.

LIGHTGene 9600

Real-Time PCR System, 96-well block

- Features:**
- 10.1-inch high-definition color touch screen.
 - High sensitivity with full-spectrum LED and Hamamatsu PMT.
 - 6 fluorescence channels to meet a variety of experimental schemes.
 - High-precision temperature control and gradient function available.

iBLED

Portal to Life Discoveries!
LED Transilluminator

iBLED470

Blue Light Transilluminator

- Features:**
- Optimize for use with the nucleic acid and protein fluorescent dyes.
 - Blue light source is good for 50,000 hours.
 - Light intensity can be adjusted by knob.
 - No risk of UV damage for high quality work experience.

AMDS-400

Automatic Molecular Detection System

- Features:**
- the fully integrated system for fast molecular diagnostics, which combines the nucleic acids extraction and Real-Time PCR, by using the microfluidic cartridge preassembled kit, up to 5 multiplex PCR.

BioPlate Reader / MR-800

Microplate Reader

- Features:**
- Fast reading of 96-well microplates.
 - Shaking and incubation from RT+4°C to 85°C for temperature critical assays.
 - Operates with internal power software or PC software control
 - USB port for easy data transfer
